

SOULSCAPE

END OF TERM UPDATE

WHAT WE DID IN THE SPRING TERM THANKS TO YOUR SUPPORT

REvive: church walking tour around Wokingham

We took Year 7 RE students out and about to learn about different types of churches in real life. It was way better than reading from a text book and many students' first time inside a church. Great sense of unity in diversity between the churches.

Object: the effects of porn

Our 'Object' performance and discussion was really well received by over 1,000 Year 10 students this term. The drama students from Artemis College did a fantastic job opening up this really important but taboo subject. One parent wrote in to thank us!

REAL: good decisions and relationships

This term we've worked with around 1,200 Year 9s. REAL gives them more space and time in school to explore vital issues, including healthy relationships. "I learned that consent is number one in every relationship - friends or partners," said one.

*Thank you for supporting our young people with your giving, volunteering and prayers.
Please come to our **quiz night** on 20 May (see the website) and **Happy Easter!***
